

ADMINISTRATIVE - INTERNAL USE ONLY

June 29, 1983

NOTE TO : D/ODP
VIA : C/MS
FROM :
Acting Chief, Policy & Plans Group, MS
SUBJECT : CIA/COINS PMO RECON Guard Memorandum
of Understanding (MOU), dtd 3 June 1983

STAT

1. Per your request, subject MOU has been reviewed and found to be acceptable. Your approval/signature is recommended. The understanding satisfactorily reflects both the temporary nature of the agreement and the COINS equipment installation specifically limiting each to the duration of the testing period (paragraphs 1 and 2). Also, the MOU states that no other commitment is implied by either party (paragraph 2).

2. This document will serve adequately as an external agreement defining the relationship between CIA and the COINS PMO for this project. It is strongly recommended, however, that a similar internal memorandum be developed ~~between~~ Agency components involved in this testing i.e. ODP, OCR, ORD, and ISSG. *ending (between involves only two parties)*

3. The intent here is to mutually recognize, agree on, and clearly state the risks and responsibilities of each party associated with this phase of RECON Guard testing. Topics that should be covered include:

- a. internal assignment of Agency responsibilities described in the CIA/COINS PMO MOU;
- b. risk of compromise of CIA (DDO, DDI, DDS&T, DDA, etc.,) sensitive data;
- c. who and how the success/failure of testing will be determined;

ADMINISTRATIVE - INTERNAL USE ONLY

- d. isolation and scheduling of ODP hardware, software, and data supporting RECON Guard testing;
- e. contents of RECON data base; and
- f. ODP central service impact(s).

4. This memorandum should be prepared by the RECON Guard Project Leader and agreed upon by all parties prior to the start of testing.

*Ok - Set
it started*
